San Diego, CA 92131

# *Installation Procedures*

## *UBDEV Tape*

---

The appropriate Operating System and DII COE Kernel must be properly installed prior to loading core and application segments.

- TAC-3/TAC-4
  - OS: HP-UX 10.20
  - Kernel: DII COE 3.0.1.0
- Sparc 10/20
  - OS: Solaris 2.5.1
  - Kernel: DII COE 3.0.0.3P2

To load the UB development environment (UBDEV), which is in `tar` format, the following dependencies apply:

--	--

Use the **Segment Installer** option within DII COE SysAdmin to load segments.

The core segments have the following loading dependencies:

--	--
